4. Sperry Top-Sider Spring 2013

It all began when Paul Sperry, inspired by his dog's ability to run nimbly over ice and snow, used a penknife to cut wave-like grooves into the outsole of a rubber sneaker. That was the vanguard of the world's first boat shoe, the Sperry Top-Sider. This season, there are 6 new trends (three for Men and three for Women), all available at selected Stadium, Studio R and Royal Sporting House (RSH) outlets from RM239.

5. Nautica Spring-Summer 2013 Men

This is a collection that draws inspiration from various island life and beach resorts, with some influence extending all the way to European vacation towns. The vibrant colours and prints that are indigenous to these isle getaways are reflected throughout the collection and incorporated into the classic, performance-driven style that is Nautica. ■
