DAY 1

You can count on a good buttoned-up shirt to go from biker girl to smart and chic! Accessorise with a popping necklace for good measure.

WEEKEND LOOK

DAY 2

Floral blazers are a big hit on the trends chart and a refreshing change from solid-coloured basics worn to work.

DAY 3

Leather vests might come across as a tad too masculine with equally tough-looking pieces. A shirt dress gives it a fresh take!

DAY 5

A blazer is the answer to keep your party wear under wraps. We tone the look down with printed pastel jeans; easy on the eyes!

DAY 4

We love a good clutch, especially one that screams personality. Strike a luxe note with a royal purple, leopard-print one, paired with a classy maxi dress.

DAY 13

Pull the look together with pieces from the same or complementing colour palette. Black and white always works too! A slingbag in just the right size for your basic necessities is heaven-sent for shopping days.

SASSY SOCIALITE

Versatile pieces make great investments. Layer a pencil skirt over a dress. Be mindful of the hem lengths of both as you don't want your dress hem peeking out.

DAY 15

Monochrome styling is so effortless and never goes out of fashion. For a twist, wear one accessory, such as your shoes, in a contrasting colour. Upbeat!

DAY 16

How about layering a loud print over your smart wear? A tiger-print tank dress over a button-down shirt smartens up the fierce print.

DAY 17

When layering statement pieces together, it's best to go with similar colour tones. Choose two colours at the most to look presentable.

BRUNCH LOOK

DAY 25

Wearing leather on leather can be quite a challenge; the tip is to choose separates in different colours. Here, we match a leather T-shirt with filigree details (showing off beautiful texture too!) with a contrasting leather shorts.

Want a fresh take on layering? Try a shirt over another shirt! It is a cool new tip to play with in hot weather.

DAY 27

The shirt dress is a timeless trend and so easy to wear. Pair it with a belt for a polished touch, or on its own for a 'roomy' vibe.

DAY 29

Animal prints and leather – you won't go wrong with this pairing that exudes a fierce, rock-chick vibe.

DAY 28

SUNDAY OUTFIT

Instead of choosing flats for your errand runs, why not opt for a pair of block-heel sandals? Just as comfortable, and adds class to your look!
